

Jason Mendenhall

Jason is the master of all things cloud and big data technologies in his role as Executive Vice President of Cloud. He oversees Switch C.U.B.E (Cloud Ubiquitous Business Exchange). He also acts as the creator and chief evangelist of new products and services into the Switch ecosystem.

Prior to becoming a partner at Switch, Jason was the co-founder of Verde Communications, which was grown and sold to Sparkplug, Inc. Jason has 15 years of experience serving as an executive for global enterprise-level companies in the telecommunications, software, and technology consulting industries.

Jason's depth and breadth of experience in working where technology and business intersect provides him a unique perspective on the issues impacting entrepreneurs, enterprise executives, and technology practitioners. He sits on the UNLV College of Engineering advisory board, is an advisor on the UNLV Technology Transfer Advisory Council, serves on the Nevada Knowledge Fund Advisory Council, acts as a mentor to the start-up community and is a steadfast and strong advocate for the role technology ecosystems play in economic diversification. He holds B.S. in chemical and fuels engineering from the University of Utah.

Jason also serves as one of the primary company representatives, and is a willing participant in global discussions surrounding current and future technology issues impacting today's business leaders.
